## THE **UNDERWATER** MISSION

### DESCRIPTION CONCEPT :

We present The Underwater Mission, a new series of MY ANIMAL FRIENDS. In series 1 we explored our animal friends and their families; in series 2 we explored all the different animal species; now in series 3 we discover the fascinating underwater world!!! Kids will find fun facts and interesting tidbits as they pour over the amazing images. Each 13-minute episode showcases incredible HD footage that kids will want to watch over and over again. Young viewers (together with their parents) will be drawn into these awesome adventures at sea, in which stunning images reveal hidden worlds of action and beauty. In 26 episodes we meet all their favourite sea creatures and explore their watery homes: playful DOLPHINS, mysterious SHARKS, graceful SEA TURTLES, waddling PENGUINS, and dozens of others; we visit coral reefs, kelp forests, and other extraordinary underwater worlds; we discover fascinating facts about ocean life, including JELLYFISH, CLOWNFISH, and the SEAHORSE.

### OUR ANIMATED CHARACTERS :

The 26 episodes will be presented and narrated by two ANIMATED friends: SALLY and VICKY diving aboard their inseparable friend BEA the Sea Turtle. SALLY is a very curious girl and loves the little friends who live below the surface of the sea. SALLY will tell us about their habits, their homes, their food and at the same time she will ask her friend VICKY so many questions, VICKY is practically a walking encyclopaedia and always knows just about everything. VICKY also guides BEA, who will help them to explore the seabed and to meet all the fish friends.

## THE UNDERWATER MISSION

### EPISODE STRUCTURE :

In this new series we help children understand that there are many parallels between their life on earth and the animal species that live beneath the surface of the ocean. They will see that fish also have their own houses, and go to school; and there are moments of danger when they must be strong to defend themselves, lessons that children need to learn in all walks of life. This simple but new concept in series 3 will appeal to a slightly wider audience, we believe between 4 and 9 years old.

**PART 1:** Sally and Vicky introduce the episode.

Sally and Vicky are on the beach, and they are waiting for BEA the sea turtle to arrive.

Sally asks Vicky what today's adventure will be? Vicky will respond by introducing the underwater friends they will meet in the episode.

**PART 2:** BEA the sea turtle, their own personal submarine, arrives and Sally and Vicky rejoice because they are excited to be off on a new underwater adventure.

**PART 3:** They dive and the adventure can begin. The episode develops with spectacular natural footage under the REAL SEA with REAL FISH (not animated).

**Part 4:** Sally, Vicky and Bea surface after their voyage and talk about the animals they have met and the things they have experienced in their underwater adventure. They look forward to the next episode in their Underwater Mission.

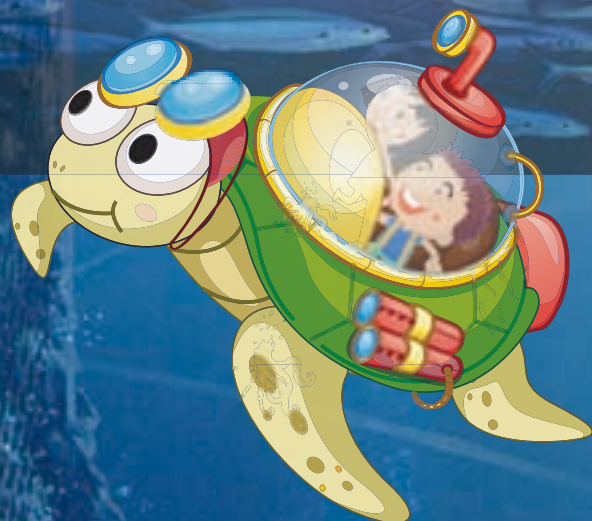

### LIST OF EPISODES :

- |                                |                                      |
|--------------------------------|--------------------------------------|
| 01. BIRTH                      | 14. ENVIRONMENT 3 : COLD ARTIC WATER |
